## Protect Florida's Water

*Stop Pointless Personal Pollution!*

### What is Pointless Personal Pollution?

The cause of water pollution is often blamed on "point sources," such as industrial or sewage treatment facilities. Discharges from these sources flow through pipes and into our water bodies. This pollution source can be readily identified and treated. **Pointless Personal Pollution**, commonly referred to as stormwater runoff is "nonpoint" source pollution that is difficult to identify and treat. This is because many of our daily activities can cause this type of pollution. This type of pollution can travel by different avenues into the ground and surface waters. Take a moment and look around your home, workplace, and yard. Most will find sources of **Pointless Personal Pollution**. Any or all of these pollutants could lead in the City's waterways.

**Some examples of pollutants include:** Oil & grease from auto or lawn equipment, pesticides, fertilizers, weed killer, litter, yard clippings, pet waste, sand and dirt from erosion.

### The Ways Pointless Personal Pollution Impact Our Waters

Pointless Personal Pollution comes in many forms that contaminate our waters in all different ways. Here are a few examples of how this can harm our waterways:

- ✦ Nutrients from fertilizers, septic tanks and animal waste cause excessive growth of algae and aquatic weeds.
- ✦ Garbage and litter reduce the oxygen in the water which can kill the aquatic life.

### Ways You Can Reduce Your Pointless Personal Pollution:

- ✦ Shop for products labeled biodegradable, non-toxic, non-phosphorus, or water soluble. These products readily decompose and will not pollute surface or ground water.
- ✦ Compost leaves, grass, and clippings then use this as mulch to supplement fertilizers. When using compost you are returning nutrients back into the soil requiring less fertilizer to be used.
- ✦ Do not apply lawn chemical if rain is in the forecast.
- ✦ Service your vehicle regularly to help prevent any leakage of fluids onto the ground/road keeping it from being washed into waterways.
- ✦ Stop "Poo"llution by Scooping the Poop-pick up your pet waste when walking your pet and in your yard.

Historic Chamber of Commerce Building  
Fast Flat USAF Certified 5K Course

**ARE YOU READY TO ACCEPT THE CHALLENGE?**

The Southeast Volusia Chamber of Commerce has partnered with Florida Hospital Memorial Medical Center to offer a unique group-organized fitness initiative along with the 2016 SE Volusia 5K Chamber Challenge. This added element is designed to inspire teamwork, fun, fitness and camaraderie for our Southeast Volusia Organizational groups and Business community. The SE Volusia 5K Chamber Challenge run/walk will take you through our beautiful New Smyrna Historic Downtown district. The 2016 run/walk is on Thursday, April 7th, 2016 starting at 5:30pm. More than 400 runners, walkers and joggers from all over will participate in what we aim to make the largest workplace-organized 5K fitness event in the County.

Both Team and Individual participant awards are given. Individuals not joining a team should register at [www.racesmith.com](http://www.racesmith.com).

**Band On The Run 5K**

# Reclaimed Water Facts

## Did you know RECLAIMED WATER....

- ...is also known as reuse water.
- ...is highly treated wastewater effluent, disinfected to a high degree making it useable to safely irrigate medians, ball fields, and residential lawns.
- ...must meet strict water quality requirements established by the Florida Department of Environmental Protection (FDEP).
- ...meets most of the drinking water standards and is safe for human contact, it is NOT intended for use as drinking water.
- ...is safe-there have been no reports of ill effects from the prescribed usage.

## Reclaimed Water Customers are Responsible for the following:

- ◆ To protect your reclaimed water from being used by others in unapproved uses.
- ◆ To educate all members of your household and guests of the approved and unapproved uses.
- ◆ To not share with neighbors, or allow reclaimed water to be transported off your property by any means.
- ◆ To not make or allow any connections of reclaimed water to potable (drinking) water lines.
- ◆ To have no above ground spigots connected to reclaimed water.
- ◆ To not connect reclaimed water to water cooled air conditioners.
- ◆ To disconnect existing irrigation systems on potable water before connecting to the reclaimed water.
- ◆ To make sure existing irrigation wells that are interconnected with reclaimed water system must be fitted with a reduced pressure zone (RPZ) backflow prevention device on the well or disconnected.
- ◆ To avoid spraying reclaimed water on the street, sidewalks, and other neighbor's property. Avoid forming reclaimed water puddles on the ground.

For more information on reclaimed water or to connect to reclaimed water contact the  
Department of Environmental Services at  
(386) 424-2400 ext 4007 or email [PublicWorks@CityofEdgewater.org](mailto:PublicWorks@CityofEdgewater.org).

## ✓ APPROVED" USES OF RECLAIMED WATER:

- ◆ Irrigation of lawn, flower gardens, trees and shrubs.
- ◆ Washing of your vehicle or boat.

## ✗ "UNAPPROVED" USES OF RECLAIMED WATER:

- ◆ Drinking-Human and pet consumption.
- ◆ Connecting any pipes to your reclaimed water pipes.
- ◆ Filling of swimming pools, wading pools, Jacuzzis, spas, or other recreational uses.
- ◆ Children should not be permitted to play in reclaimed water.
- ◆ Any usage inside the home or garage including toilet flushing, washing clothes, food preparation, bathing, showering, or washing of pets.

**Using reclaimed water  
conserves drinking water  
supplies and reduces  
discharges of domestic  
wastewater to surface  
waters.**
